SUMMARY

Software Developer (Backend) with experience building and deploying web applications, REST APIs, and automation solutions using Python, Flask, Node.js, Express.js, MySQL, and MongoDB. Strong foundation in Data Structures & Algorithms, Object-Oriented Programming, DBMS, and Operating Systems. MCA graduate from NIT Kurukshetra.

SKILLS

- **Languages:** Python, JavaScript, C++
- **Backend:** Node.js, Express.js, Flask, REST APIs, API Integration
- **Databases:** MySQL, MongoDB, PostgreSQL
- **Automation:** Web Scraping, Workflow Automation, Task Automation
- **Tools:** Git, GitHub, Postman, Linux
- **Core:** Data Structures & Algorithms (C++), OOP, DBMS, Operating Systems

EXPERIENCE

- **Software Developer (Contract) – GramSCS** | Jan 2026 – Mar 2026
  - Developed and deployed a logistics tracking web application using Flask, SQL, and OpenStreetMap.
  - Built REST APIs and implemented map-based visualization for real-time data workflows.
  - Managed deployment, database maintenance, bug fixes, and backend performance optimization.

- **Software Developer – Freelance** | Jul 2025 – Dec 2025
  - Automated bulk messaging & email workflows (100+ records), reducing manual effort by ~80-90%
  - Built web scraping scripts for structured data extraction
  - Trained an international client (UK) in Python fundamentals

PROJECTS

- **Job Application Tracker** | Node.js, Express.js, PostgreSQL, React, JWT
  - Built REST APIs for job tracking, filtering, reminders, and analytics.
  - Implemented JWT authentication and PostgreSQL-based user access control.

- **Automation Suite** | Python
  - Developed automation scripts for email workflows, messaging, web scraping, and structured data extraction.
  - Integrated APIs and JSON-based workflows to automate repetitive backend tasks.

EDUCATION

MCA, NIT Kurukshetra | 2022–2025 — CGPA: 7.67
B.Sc. Computer Science, University of Delhi | 2018–2021 — CGPA: 8.7
Class XII (Non-Medical), DAV Public School | 2018 — 86.66%

ACHIEVEMENTS

- **AIR 347 – NIMCET 2022** (Top ~1.4% among 25,000+ candidates)
- **1st Place – LAN Coding Competition**, University of Delhi
- **350+ DSA problems** solved across coding platforms
